M ² Property:		M ² Inside:	400

This property is not for sale until the energy certificate has not been submitted.

DESCRIPTION

On a huge terrain between the village of Santa Gertrudis and San Lorenzo is this authentic finca, with all its original elements.

This location is especially appreciated by families. As it is a very peaceful location, defined by Ibiza's leisurely and way of life offering first class restaurants and unspoilt nature landscapes. This so called "finca payesa" is completely untouched since its creation. Among these charming features are the thick stone walls and the Sabina wooden beams. The living area has high ceilings, which create a very welcoming atmosphere.

The farmhouse is looking for a new owner who appreciates and loves these typical elements and who will turn this old country house into a charming home with modern facilities.
