This modern new-build residential project consists of two buildings set around a shared swimming pool and surrounded by landscaped gardens, creating a strong connection with the natural environment. The development comprises 38 homes with two and three bedrooms, offering a variety of layouts to suit different lifestyles, including penthouses with spacious solarium terraces and open views.

Both buildings are connected by an underground garage, which also includes storage rooms, maximizing living space within the homes. All residences are finished to a high standard, with a focus on natural light, energy efficiency, and outdoor living through terraces or solariums.
